

Back To Business WEBINAR SERIES

Practical tips to help all livestock producers rebuild on the back of bushfires, drought, floods and storms.

From pastures and nutrition to the purchase of new livestock - there are many considerations when it comes to livestock producers getting BACK TO BUSINESS.

With expert information to help build resilient livestock businesses, this series of one hour webinars will provide you with practical tools and advice on decision making, rebuilding, and setting your business priorities. Information on health and wellbeing and accessing financial and government assistance will also be available.

Don't miss the opportunity to get back to business now and plan for a resilient, productive and profitable future.
