

Using the App

Before opening GPS Waypoints app, Location must be turned on for the app to function.

To turn on location: **swipe down** in the home screen, and tap the **location symbol** so it is highlighted.

The app will open up on the GPS Waypoints Dashboard. Features of Note for this guide:

Find the **GPS Waypoints app Icon** and open it.

Purchasing Premium GPS Waypoints

Choose the Premium lifetime payment option and press Buy

Premium GPS Waypoints allows uses to organise and share data that is collected. Since the Weed monitoring programs will be done over a number of years lifetime ensures that you are able to access all features of GPS Waypoints during the program.

Creating a Tag

Tags allow you to allocate attributes to waypoints so you can make them easy to find in GPS Waypoints and to sort in Excel.

In the menu, go to **tags**
